

# The Basics

## Lesson 2 Exercise ("Hello World" (Python 3 Command Line))

1. Ensure you have viewed the video (associated with this exercise) at [this link](#).

If you are viewing a printed copy of this exercise locate the video on the YouTube channel either directly on the channel or via the supporting website.

2. Launch the Python (command line)

3. Enter the two lines as shown below

- What output do you expect?

```
C:\Python33\python.exe
Python 3.3.2 (v3.3.2:d047928ae3f6, May 16 2013, 00:03:43)
Type "help", "copyright", "credits" or "license" for more
>>> message = "Hello World"
>>> print (message)
```

- What output did you get?

**END**
