## Lesson 14 Exercise (A Python Variable versus a Python Object)

1. Ensure you have viewed the video (associated with this exercise) at [this link](#)

If you are viewing a printed copy of this exercise locate the video on the YouTube channel either directly on the channel or via the supporting website.

2. Draw the 'execution space' (as represented in the video) when the following line of code executes.

```
number_one = 34
```

3. Draw the 'execution space' (as represented in the video) when the following lines of code execute.

```
capital = 1000  
interest_rate = 1.7
```

**END**
